Informatics graduate from Universitas Klabat with a strong focus on AI and Full Stack Development. Experienced in building web and mobile applications using Python (Flask), React, and React Native. Passionate about AI Integrations, including NLP, speech processing, and automation systems to deliver impactful technology solutions.

PROJECT & PORTFOLIO

Smart Assistant for Visually Impaired (Thesis Project)

- Developed an AI-powered assistant enabling voice interaction using Speech-to-text and Text-to-Speech.
- Improved accessibility and independent information access for visually impaired users.
- Built a fullstack system including mobile application, backend API, and admin dashboard.

Tech: Python, Flask, React Native, React.js, Gemini API

Github: *Backend*, *Frontend*, *Admin*

VPS Log Monitoring System

- Developed an AI-based monitoring system to analyze logs and system conditions.
- Sent real-time notifications via WhatsApp based on analysis results.
- Implemented scheduled monitoring and automation using Jenkins on a Linux Server

Tech: Python, Gemini API, WhatsApp API, Linux Server, Jenkins, Git

Github: *Link Github*

Library Information System

- Developed a web-based system to manage books, users, and loan transaction.
- Implemented authentication, session management, and web security (CSRF, HTTP Security headers, Prepared Statement).
- Deployed the system on a Linux VPS with Git-based version Control.

Tech: PHP, MySQL, Bootstrap, Linux Server, Git

Github: *Link Github*

TECHNICAL SKILLS

- Programming Language: Python, PHP, Javascript
- Framework: Flask, Laravel, React.js, React Native
- API & Integration: Rest API, Gemini API, WhatsApp API, OpenCage API
- Tools: Git, Figma, Linux, Jenkins

WORK EXPERIENCE

Faculty of Computer Science, Universitas Klabat Jan-Mei 2025 & Aug-Dec 2025

Teaching Assistant

- Assisted lecturers in evaluating student assignments and projects based on grading rubrics and facilitated communication between students and lecturers.

UNKLAB Media Jan 2025-Jan 2026

Operator vMix

- Managed real-time live streaming operations (video, audio, and graphics) and ensured seamless, high-quality broadcasts without technical issues.

EDUCATION

Universitas Klabat 2022-2025

Bachelor of Computer Science (Informatics)

GPA: 3.73/4.00, *Magna Cum Laude*

ORGANIZATION

The UNKLAB Choir, Universitas Klabat Aug 2022-Dec 2025

Actively participated in The Unklab Choir through consistent involvement in ministry concerts, while managing strategic communications as a Public Relations Officer (2023) and overseeing logistical operations as Equipment Staff (2024).
